

FAQs Student Technology Fee

What is the student technology fee?

- The technology fee is a \$50 charge per student, per school year.

What does the student technology fee cover?

- Equitable access to all of the District's Technology resources.
- An assigned a 1-to-1 technology device (issued per student) to be used for Learning
 - This assigned device will be an iPad or a Chromebook - depending on student's grade level, to be used exclusively by that student.
- A Hazel Crest District 152½ Google for Education account created for each student.
 - This Google for Education Account allows the student to access the district's entire online digital curriculum.
- High-speed internet access throughout the campus
- Access to STEM related programs (e.g. Z-Space Labs, 3D Printers, etc.)
- Access to the E-Sports computer lab and student Broadcast facilities.
- Training students to utilize 21st Century Technologies to enhance their learning outcomes.
- Support from the IT Help Desk, including on-campus hardware repair for accidental damage of devices, and remote-assistance with device issues.
